

JUDGES' COMMENTS

This is an easy issue to dive into with the great use of colour, contrasting type and photography. Vibrant layouts, peppered with moments of restraint, let strong, punchy imagery stand with plenty of breathing room and minimal fuss. Typographic details keep the visual focus on the content and the use of contrast keeps the reader turning the pages. The solid art direction and design are a backdrop to an issue full of surprises and the pacing of the visuals creates some great unexpected "wow" moments.
